manufacturer of the finest custom-made aircraft covers

Tech Sheet: Airbus Helicopter H160

(airbus-helicopter-AH160.pdf)

Agusta AW139 Cockpit/Nose, Rotor Mast Cover

Section 1: Cockpit/Bubble Covers

The **Airbus Helicopter H160 Bubble Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

The **Bubble Cover** encloses the entire canopy including the windshield, skylights, and chin bubble Attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. Both the top and bottom hems of the cover have a special rope-hem feature with which they can be tightened to help prevent abrasive chafing of the windshield. Pockets are sewn into the cover for the temperature probe and pitot tubes. The bubble cover is reinforced with patches at hinge points, door handles, and for the windshield wipers. For ease of installation, the bubble cover is color-coded (red=left, green=right) with color swatches sewn into the corners.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

Agusta AW139 Cockpit/Nose Cover

Sikorsky S-92 Windshield/Nose, Blade, Rotor Hub & Tail Rotor Covers

Description	Part Number	Price
COCKPIT/NOSE COVER	**AH160-000**	**$1810.00**
BUBBLE COVER, covers all windows	**AH160-010**	**$3000.00**

Section 2: Engine/Tail Rotor Covers

Blade Tie-Downs are "socks" which fit over the blade tip with or without Blade Covers installed. Front blade tie-downs have two lengths of rope or strap which attaches to the front cross tubes on either side of the cabin. The other tie-downs have generous lengths of rope or strap to tie the blades down at any convenient spot.

Engine Cover details vary by model, but generally these covers are designed to enclose and protect the swash plate, inlet, exhaust and engine access areas. They are designed to tighten up around the main rotor drive shaft and tailboom bottleneck areas, and attach securely with straps either under the belly or to the land gear cross tubes (or both). *Delrin* buckles are used to tighten the attachment straps. The engine cover is made of Solution-Dyed Polyester or acrylic *Sunbrella*, and is available in a variety of colors ([contact us for details](/contact). Specific information for each model is available on request.

Rotor Hub Covers overlaps with the Blade Covers to ensure complete protection for the entire main rotor system. Designed like a jacket with sleeves and no collar, the rotor hub cover fastens together below each blade with *Delrin* buckles. The Rotor Hub Cover is normally made from Solution-Dyed Polyester.

Bruce's **Airbus Helicopter H160 Blade Covers** are made of medium-weight Solution-Dyed Polyester and designed to avoid trim tabs or wicks. You can install Blade Covers from the ground with the aid of a lightweight rope attached to the open end. Covers are cinched tight at the blade root with straps and quick-release plastic buckles. The **Cold Weather Blade Covers** are fitted with full-length zippers and optional deice "boots" designed to accept a preheater hose; a small opening at the tip of the cover allows for some air circulation and drainage in freezing weather. Some part numbers have features for an extra charge.

Agusta AW139 Rotor Mast Cover, covers upper deck & aft of rotor mast area

Sikorsky S-92 Main Rotor Hub Cover

Description	Part Number	Price
ENGINE AREA/MID CABIN COVER	**AH160-100**	**$4835.00**

BLADE COVERS, cold weather (set of 5)	**AH160-210**	**$4165.00**
ROTOR MAST COVER, tucks into swash plate opening	**AH160-230**	**$1185.00**
ROTOR MAST COVER, covers upper deck fwd & aft of rotor mast area	**AH160-240**	**$1900.00**
BLADE TIE-DOWNS (fabric type) (set of 5)	**AH160-500**	**$945.00**

Section 3: Plugs & Protection

Airbus Helicopter H160 Heat Resistant Pitot Tube Covers, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

Airbus Helicopter H160 Pitot Tube Covers, NOT HEAT RESISTANT TYPE, are made of Naugahyde vinyl, and are designed to cover the entire pitot assembly. Slipping over the tube, the cover tightens around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to this design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Exhaust Plugs** are custom fit for your Airbus Helicopter H160 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Exhaust plugs have 'Remove Before Flight' streamers sewn onto the face of the plugs. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

Agusta AW109 (A, C, & Trekker) Pitot Cover Set

Agusta Power Pitot Covers, Intake Covers, and Cockpit Heatshield set

Description	Part Number	Price
EXHAUST PLUGS (set of 2)	**AH160-120**	**$550.00**
EXHAUST COVERS (set of 2)	**AH160-130**	**$375.00**
PITOT COVER SET (set of 2)	**AH160-550**	**$240.00**
PITOT COVER SET, heat resistant type (set of 2)	**AH160-555**	**$360.00**

Section 4: Tailboom Covers

The **Tailboom Cover** details vary by model, but generally the helicopter tail boom cover encloses the tail boom from the "bottleneck" to the aft end. They usually also cover the horizontal stabilizers, and are custom made to allow for antennae, lights, and other protrusions. They attach with straps underneath the tail boom. Covers for the vertical and horizontal stabilizers are also available separately. Specific information for each model is available on request.

Airbus EC145 Tailfan Housing Fenestron Cover

Airbus EC145 Tailfan Housing Fenestron Cover

Description	Part Number	Price
TAILFAN HOUSING FENESTRON COVER	**AH160-600**	**$740.00**

Section 5: HeatShields & Sun Reflectors

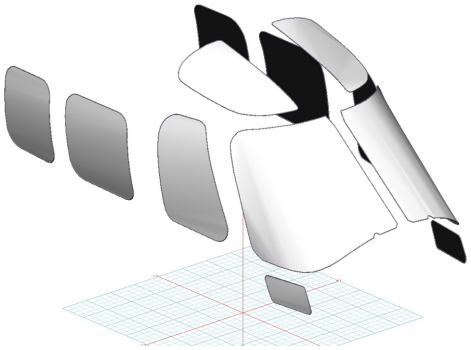

Cabin Heatshields are interior sunshades for the aircraft's passenger cabin area. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. Darts and folds are incorporated into the material so that it conforms to the complex shape of the helicopter windows. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Heatshields are interior sunshades for an aircraft's windows or canopy glass. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand along the inside of the windshield using sun visors or window framing. It folds up flat and easily stores in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating.

Agusta AW109S/SP Grand Heatshield Set

Agusta Grand HeatShields, 3D model

Description	Part Number	Price
INSTRUMENT PANEL HEAT SHIELD COVER	**AH160-400**	**$290.00**
COCKPIT HEATSHIELDS, including chin bubbles (set of 10)	**AH160-900**	**$750.00**
COCKPIT HEATSHIELDS, does not include chin bubbles (set of 8)	**AH160-901**	**$600.00**
HEATSHIELD SET, including chin bubbles (set of 16)	**AH160-905**	**$1200.00**
HEATSHIELD SET, does not include chin bubbles (set of 14)	**AH160-906**	**$1050.00**
CABIN HEATSHIELDS (set of 6)	**AH160-910**	**$450.00**
